PENINSULA

AT HARBOR POINT

STAMFORD, CONNECTICUT

A New Point of Convergence

The Peninsula brings a new model for innovation to Stamford: a 14-acre ecosystem where the frontiers of science and technology converge. With the scale and flexibility to connect complementary disciplines, companies can move faster from research to real-world impact.

It all takes shape within Harbor Point's vibrant waterfront neighborhood, drawing on the talent, institutions, and capital powering innovation across the Northeast. Here, companies have the freedom to build around their ambitions and evolve with what comes next.

The Northeast Innovation Super Corridor

The Best Site from Boston to Philly

Situated within the New York metropolitan area, roughly halfway between Boston and Philadelphia, Stamford sits at the center of one of the world's most concentrated innovation corridors. Its position connects New York's finance and corporate base with leading research institutions, healthcare systems, advanced industries, and specialized talent across the Northeast.

Live. Work. Play. On the Waterfront.

The Peninsula is part of Harbor Point's established 100+ acre waterfront community. With an active neighborhood, laid-back coastal character, and experiences that extend from the boardwalk to the Sound, companies can offer their employees more before, during, and after the workday.

62 Southfield

PENINSULA
AT HARBOR POINT

Start Now

62 Southfield offers lab-ready space for immediate R&D operations.

ENTIRE BUILDING

→ 66,314 RSF

FIRST FLOOR

→ 40,457 RSF

SECOND FLOOR

→ 25,857 RSF

PARKING

→ 2.71 per 1,000 SF

Mechanical Overview

ENTIRE BUILDING

- 900 KW 3-phase 440 generator
- HVAC: Cooling tower + ductless splits, heat pumps, and a hot water boiler
- Hospital grade air in all lab spaces (biochem labs), 6-to-8 turnovers per hour
- 2000 amp services

Building & Mechanical Specs

CEILING HEIGHT

→ 8'4 to 17'6

POWER / ELECTRICAL

→ 2000 amp service, 277/480 volt

BACKUP POWER / GENERATOR

- 900 KW 3-phase 440 generator
- Building Galaxy hardlined outlets on permanent system (hospital grade back up)

LOADING DOCK

- 1 loading dock 8'x8'
- Cargo elevator nearby
- 3 walk-in coolers nearby

HVAC

- Cooling tower
- Ductless splits
- Heat pumps
- Hot water boiler
- Hospital grade air in all lab spaces (biochem labs), 6-to-8 turnovers per hour
- Fume and chemical hoods in place – Labconco brand with under bench storage and enclosure sash

ELEVATORS

- 2 Main passenger and 1 freight

1st Floor | 40,457 RSF

Key

- Open Offices / Lab
- Office / Conference Room
- Lounge
